Jesid Mauricio Mejía Castro

*Curriculum Vitae*

`mauricio02.jpg`

Overview

Systems and Computer Engineer from the National University of Colombia. I am currently pursuing the title of Master in Engineering and Data Analytics from the Jorge Tadeo Lozano University. My experience covers databases and ETLs development in banking and financial services. I keep an obsessive spirit for learning and understanding complex subjects and I promote technical rigor and intense teamwork. I am deeply engaged with ethics in the workplace.

Birth date	September 27, 1991
Phone	+57 300 706 3656
Email	jmauriciomejia@gmail.com

Education

Undergraduate degree

`logo_unal_3.jpg`

Ingeniero de Sistemas y Computación, *Universidad Nacional de Colombia*, Bogotá

2012 − 2017

Graduate degree

`logo_utadeo.jpg`

Magíster en Ingeniería y Analítica de Datos, *Universidad de Bogotá Jorge Tadeo Lozano*, Bogotá

2020 (Ongoing)

Technical Skills

Advanced User

ETL Development	IBM Infosphere DataStage	**DBMS**	PL/SQL with Oracle Database. SQL with MS SQL Server 2012

Intermediate User

|			
Programming Languages	Python, Java, VBA, R	**Machine Learning**	Regression, Classification, Clustering and Dimensionality Reduction

Languages

English High level of reading and listening

## Job Experience

Years

2016 – 2017 **Internship**, *Enel Codensa S.A. E.S.P.*

`logo_codensa.jpg`

In this utility company I completed my internship with the Customer Ombudsman Office. I was in charge of new developments and monthly reports (mainly with MS Access and VBA).

2018 – 2020 **Analyst**, *Banco de Bogotá*

`logo_bdb.png`

Between 2018 and 2019 I worked in the Credit Division developing in-house tools and database reports (with MS SQL Server 2012). Since mid 2019 until now I have been working in the Information Governance And Data Quality Office. I develop ETL projects and PL/SQL scripts aimed at measuring the quality for several data domains in the bank.
